Sample paper-Term -I-23-24

Class	V Subject- Science Time : 3hrs	ı
Date	MM :80	
	SECTION -A	
	Choose the correct answer:	
1	Which of these nutrients help our body to fight diseases–	1
	a)vitamins b)proteins c)fats	
2	which of these helps improve the block en cultured of the body	1
	a)Exercise b)weak c) sick	
3	Which of those is source of protein	1
3	which of these is source of protein	•
	a) carrot b) milk c) ghee	1
4	induction and defined to the boiled with his to called .	1
_	a)ligament b) tendon c) ribs	1
5	Animals like yak ,bear and sheep haveon their body.	1
	a)fur b) Scales c) Shell	
6	The heart is made ofmuscles	1
	a)cardiac b)involuntary c) ribs	
7	There are more thanmuscles in our body.	1
	a)900 b) 50 c)650	
8	Carbohydrates and are energy giving	1
	components .	
	a)fats b) protein c)minerals	
9	is only movable bone of the skull.	1
	a)lower jaw b) Ribcage c) femur	
10	Whales and dolphins are classified as .	1
	a)amphibians b) mammals c) Ostrich	
11	Locusts are harmful migratory-	1
	a)rodent b) fish c)insects	
12	A new potato plant can be grown from a potato with an eye.	1
	a)True b)False	

1.3	10.1	1
13	Mixed nerves carry messages in both ways.	1
	a)True b)False	
14	Vitamins help in formation of teeth and bones	1
	a)True b)False	
15	Which of these crops is grown from November to April -	1
	a)jowar b)wheat c) rice	
16	Polar bear live in habitat .	1
	a)Land b) Desert c)Mountains	
	Q. no 17, 18, 19 and 20 are Assertion-Reasoning based	+
	questions	
	These consist of two statements – Assertion [A] and Reason [R].	
	answer these questions selecting the appropriate option given below:	
	a. Both A and R are true and R is the correct explanation of A	
	b. Both A and R are true and R is not the correct explanation of A	
	c. A is true but R is false	
	d. A is false but R is true	
17	Assertion(A)-To remain healthy ,we must eat a unhealthy diet.	1
17	Assertion(A)-To remain healthy ,we must eat a unhealthy diet. Reason-(R) Vitamins and minerals are protective food.	1
	Reason-(R) Vitamins and minerals are protective food.	
18	Reason-(R) Vitamins and minerals are protective food. Assertion-(A)Spiracles are the tiny holes on insect body. Reason- (R) To exchange of gases	1
18	Reason-(R) Vitamins and minerals are protective food. Assertion-(A)Spiracles are the tiny holes on insect body.	1
18	Reason-(R) Vitamins and minerals are protective food. Assertion-(A)Spiracles are the tiny holes on insect body. Reason-(R) To exchange of gases Assertion(A) -Carbohydrates are called energy -giving	1
18	Reason-(R) Vitamins and minerals are protective food. Assertion-(A)Spiracles are the tiny holes on insect body. Reason-(R) To exchange of gases Assertion(A) -Carbohydrates are called energy -giving components of food.	1
18	Reason-(R) Vitamins and minerals are protective food. Assertion-(A)Spiracles are the tiny holes on insect body. Reason-(R) To exchange of gases Assertion(A) –Carbohydrates are called energy –giving components of food. Reason-(R) –because it protects us from diseases.	1
18	Reason-(R) Vitamins and minerals are protective food. Assertion-(A)Spiracles are the tiny holes on insect body. Reason-(R) To exchange of gases Assertion(A) -Carbohydrates are called energy -giving components of food. Reason-(R) -because it protects us from diseases. Assertion (A)-coal is formed from vegetable matter.	1
18 19 20	Reason-(R) Vitamins and minerals are protective food. Assertion-(A)Spiracles are the tiny holes on insect body. Reason-(R) To exchange of gases Assertion(A) - Carbohydrates are called energy - giving components of food. Reason-(R) - because it protects us from diseases. Assertion (A) - coal is formed from vegetable matter. Reason(R) - we should conserve our natural resources	1 1 1 2
18 19 20	Reason-(R) Vitamins and minerals are protective food. Assertion-(A)Spiracles are the tiny holes on insect body. Reason-(R) To exchange of gases Assertion(A) -Carbohydrates are called energy -giving components of food. Reason-(R) -because it protects us from diseases. Assertion (A)-coal is formed from vegetable matter. Reason(R)-we should conserve our natural resources SECTION-B	1 1 1
17 18 19 20 21 22	Reason-(R) Vitamins and minerals are protective food. Assertion-(A)Spiracles are the tiny holes on insect body. Reason-(R) To exchange of gases Assertion(A) -Carbohydrates are called energy -giving components of food. Reason-(R) -because it protects us from diseases. Assertion (A)-coal is formed from vegetable matter. Reason(R)-we should conserve our natural resources SECTION-B a)Define-Magma	1 1 1

24	How are sedimentary rocks formed? Give two example of Sedimentary rocks.	2
25	Define – Migration OR Habitat	2
26	Give one word for each .:- a)Disease caused by deficiency of vitamin C b)Disease caused by deficiency of Vitamin D.	2
	SECTION -C	
27	Why do animals need to take in oxygen?	3
28	How was the coal formed? Write any three uses of coal?	3
	OR How is basalt different from granite?	
29	Why water is essential for our body?	3
30	How is Skeleton useful to us?(any 3 points)	3
31	a)What are the three main parts of the nervous system? b)While riding a scooter or a bike , one must wear a helmet .Why?	3
32	Name the three main parts of the brain .Give their functions.	3
33	What are the various components of a balanced diet?	3
	SECTION-D	
34	a)What is dispersal ?How are seeds dispersed by wind ,animals and explosion	5
	OR	
	A)Define –Germination	
	B)Draw- Germination of a seed C)We cannot grow the crop of wheat in summer (June or July)Why?	
35	a)Distinguish between voluntary and involuntary muscles ? b)Define –Joints Or	5
	What does the nervous system do?(any 5 points)	
		5

	OR	
	A)Write about structure of an eye .	
	B) Define –Spinal cord	
	SECTION -E	
	Case base study questions.	Ť
	Read the following passage carefully and answer the given	
	questions	1
37	Most rocks are composed of just one mineral -like matte rocks	
	are found everywhere. Some rocks are composed of just one mineral.	
	1) How are igneous rock formed ?(2)	
	2) Give any one example of Igneous rocks (1)	
	3)What is the study of rock called?(1)	
	OR	
	Magma is a mixture of magnesium and copper.(true /false)	
38	Germination is not a single step process .seeds are scattered to	
	different places away from the parent plant.	
	1) Define –Crops (2)	
	2)Plants give us (clean air / dirty air)(1)	
	3)Give an example of a plant whose seeds dispersed by the wind.	
	OR	
	Give an example of a plant whose seeds dispersed by by the water	
39	Animals found on the Earth are very diverse in nature. These	†
	creatures differ in their food and feeding habits. All organisms	
	need oxygen to breathe	
	1)Why do animals need to take in oxygen?(2)	
	2)Define –Habitat(1)	
	3) Name any one animal that live in forest.(1)	
	OR	
	In an habitat ,organisms live in deep ,salty water.
